Industrial Engineering graduate with supply chain internships at PT Vale Indonesia and PT Triatra Sinergia Pratama, and hands-on leadership heading a student division and a Lean practicum module. Turns operational data into recommendations that drive operational excellence, and collaborates across procurement, logistics, inventory and warehouse stakeholders. Driven to grow into a future leader in supply chain management.

## EXPERIENCE

**PT Vale Indonesia Tbk.** - East Luwu, South Sulawesi — Feb 2026 – Aug 2026
*Supply Chain Management Intern (Co-Ops Vale Batch 4)*

- Analyzed inventory, traffic, and procurement data across 1,700+ materials and 2,500+ POs to flag stock-out risks, overdue POs, and vendor issues, feeding weekly supply chain decisions.
- Built an automated inventory and procurement monitoring dashboard (Excel, Power Query) integrating MRP, stock, PO, and vendor data, cutting reporting time by 95.8% (2 days to 1 hour).
- Collaborated cross-functionally with Procurement and Traffic teams to track availability and delivery risks for 250+ critical materials, ensuring timely follow-up.
- Led an internal service quality study (SERVQUAL, 25 attributes, 35 users), finding significant gaps in 23 of 25 attributes using SPSS and Python.
- Presented findings and recommendations to the Senior Manager of Material Management, using Importance-Performance Analysis to prioritize 3 critical attributes for immediate improvement.

**PT Triatra Sinergia Pratama (Astra Group)** - East Jakarta, DKI Jakarta — Mar 2025 – Jun 2025
*Warehouse & Distribution Intern*

- Analyzed 1+ year of air, land, and sea shipment data across 20 routes to identify delivery performance patterns, informing route and fleet utilization decisions.
- Designed a QCD vendor evaluation framework with 10 criteria (Cost 40%, Delivery 35%, Quality 25%) to make forwarder selection objective and data-driven.
- Mapped and assessed 10+ logistics vendors with procurement stakeholders to shortlist partners for the tender process.
- Contributed to SLA and performance-monitoring requirements for selected routes to support continuous improvement of distribution performance.

## EDUCATION

**Universitas Hasanuddin** - Makassar, South Sulawesi — Aug 2022 – Sep 2026
*Bachelor of Industrial Engineering, GPA 3.78/4.00*

- Thesis: Developed a warehouse delivery scheduling information system to improve loading coordination, using Design Thinking and Rapid Application Development (RAD), validated through Black Box Testing and a System Usability Scale score of 85.45 (Excellent).

## LEADERSHIP & ORGANIZATIONAL EXPERIENCE

**Manufacturing Systems Laboratory** - Universitas Hasanuddin — May 2026 – Present
*Laboratory Assistant – Practicum Coordinator & TPS Module PIC*

- Served as Practicum Coordinator, bridging communication between 15 lab assistants and 179 participants across 2 practicums and leading participants through practicum activities.
- Led the Toyota Production System (TPS) module as PIC, teaching Lean principles to 101 participants across sessions of 16–17.
- Identified administrative bottlenecks in the practicum process and developed a practicum administration information system adopted by 179 participants, digitizing activity recaps and paperwork and eliminating in-person submissions and printing.
- Built an assistant performance evaluation feature into the system, giving assistants structured feedback from participants to support continuous improvement of practicum quality.

**HMTI FT-UH** - Universitas Hasanuddin — Jul 2024 – Feb 2025
*Head of Entrepreneurship Division*

- Led a team of 8 within a 95-member organization, owning the planning and execution of 2 flagship programs: INCREASE and START-UP.
- Coordinated cross-functionally with 5 of 9 divisions (Public Relations, HR Development, Business Unit, Research & Technology, Media & Information) to deliver programs end to end.
- Designed INCREASE to build students' entrepreneurial creativity and innovation through lectures, group discussions, and case studies, engaging 50+ participants per session.
- Led START-UP as PIC, a university-wide seminar attended by 200+ students featuring a business owner and the university's PMW program lecturer, plus a business expo where 15 student-owned businesses showcased and sold their products.

**Basic Physics Laboratory** - Universitas Hasanuddin — Sep 2024 – Aug 2025
*Laboratory Assistant*

- Mentored and supervised 100+ first-year engineering students across Basic Physics I and II practicums, maintaining 100% compliance with lab safety standards.

**ISLI Camp 2024** - Makassar, South Sulawesi — Aug 2024 – Oct 2024
*Event Committee – Event Division*

- Managed the event flow for a national supply chain and logistics program by the Indonesia Supply Chain and Logistics Institute, covering a seminar with 100+ participants and a camp with 30+ finalists.

## SKILLS, CERTIFICATIONS & ACHIEVEMENTS

- **Technical:** Excel (Pivot Table, Lookup, Power Query), Power BI, MS Office, SAP S/4HANA (MM Module), Python, SPSS, Minitab
- **Analytical:** Data Analysis, Inventory & Procurement Monitoring, Vendor Evaluation, Lean & TPS, Quality Engineering, Design Thinking
- **Training & Certifications:** TPS Training – Toyota Motor Manufacturing Indonesia (2025) · SAP S/4HANA MM & Slimstock – PT Vale (2026) · Business Intelligence Bootcamp – Digital Skola (2026) · Microsoft Power BI – MySkill
- **Achievements:** 1st Place, Content Marketing Competition 2025 (MarkPlus Institute & Antam) · 2nd Place, Astra Motor Business Case Competition (South Sulawesi)
- **Language:** Bahasa Indonesia (Native), English (Professional – TOEFL 570)
